## TOPCon BIFACIAL

The 108-cell Half Cut module from the Half Cell Line selection combines the high power production yield of half-cell technology with an excellent price-quality ratio. The half-cell configuration improves the electrical distribution within the panel to increase product performance. Moreover, this product utilizes **bifacial TOPCon technology**, which allows sunlight to be captured on both sides of the module, further enhancing overall efficiency.

The Half Cut selection of the Half Cell Line is suitable not only for industrial installations but also for residential and commercial ones.
